8. Signature

The Zoning Officer does not guarantee, or in any way give opinions as to the location or use of an applicant's structure. A Zoning Permit only reflects conformance of the plan, as applied to zoning laws. The applicant alone bears the responsibility of insuring that his/her lot, structures, and uses thereon, do not violate other laws, regulations, or the rights of neighbors and other parties. Applicant acknowledges that he/she has not relied on any oral or written statements of any officer of the Township, as to matter other than zoning.

In order to ensure that the review processes and administration of this Zoning Ordinance are accomplished in a manner that is readily accessible to all citizens of the Township, any information and/or plans submitted associated with any application, permit, petition, appeal or any other request shall be provided in a form that is reproducible, without restriction, by any and all interested parties and/or the general public. The submission of copyrighted materials will not be accepted.

I hereby certify that the information submitted in accordance with this application is correct, and I further agree to pay for those cost outlined above. I also agree to display this permit in accordance with the Carroll Township Zoning Ordinance and notify the Township when the actions granted by this permit have been completed and prior to occupancy.

10. FEES

Total Fee for Zoning Permit _____ Check No. _____ Date Received _____

PROCEDURE FOR OBTAINING A ZONING/SIGN PERMIT

To All Applicants:

In order to obtain a Zoning and/or sign permit, a sketch plan of your property must be attached. The plan MUST include the following or it may be returned as incomplete.

1. Overall plan of property. This does not need to show bearings but should show distances to the best of the Applicants ability.
2. Show locations of all wells, septic tanks, drainfields, existing building, proposed building, swimming pools, permanent landmarks such as large trees, driveways, electric lines, and property lines.
3. Please be sure to show intersecting street names.
4. Show all distances to all property lines from the proposed structure.
5. For signs, please show where the sign will be located, dimensions, what the sign will read, height, if it will be illuminated, and is it temporary or permanent.
6. Please note that if you are replacing a structure, you must show what the previous structures size and dimensions were and what the proposed structures size and dimensions are. Please state the use of the proposed structure.
7. The plan must show the disturbed area including driveway grading, homesite grading, including, but not limited to septic systems and wells. This is all part of a new regulation set forth by the PA DEP effective November 19, 2010.

Below is a sample plan that can be followed. You do not need to have this done by a professional as long as it is legible. We understand that plans may not be to exact scale, however they must show the distances. Please note that this will help speed up the process of your permit application. If the plan does not have all the required information, your plan may be denied.
